

# PROWITE™ Sliding Whiteboards

Iona College

**PROWITE™ Sliding Porcelain-Enamel Whiteboards**

**Magnetic** Highest-quality magnetic whiteboards with a porcelain enamel surface. Available in many sizes or combinations. High quality top mount sliding track system.

**Surface/Produced** PROWITE™ porcelain-on-steel whiteboards are the ultimate in dry-erase writing surfaces. The ultimate for high use and when you want a porcelain whiteboard that lasts forever!

These boards are produced using Porcelain Enamel on steel, fired at a temperature of over 800°C during production, giving the boards an exceptionally hard, smooth and durable writing surface finish with a 50 year guarantee.

PROWITE™ whiteboards are first when it comes to premium lightweightness, strength and quality.

**Materials** They have a robust aluminium frame, honeycomb substrate and galvanised steel back to avoid warping and moisture absorption during humid conditions.

**Use** The ideal choice for high-use situations eg: offices, classrooms, as constant use & writing and rubbing **will not** scratch or wear out the surface.

They're also perfect for interactive whiteboard (IWB) setups where a flat surface is needed and a stylus or electronic pen is often used.

**Installation** So quick and easy to install to any flat wall or into a cabinet.

It can be easily installed in cabinets with Anodised Aluminum double track top hung with aluminium guide channels to the bottom. Aluminium can also be finished in any powder coated colour to contrast or match cabinet.

**Extra Features** The PROWITE™ porcelain surface is also ideal for *laser-etching* (printing), please enquire to find out more about laser-etched whiteboards and what we can do.

**Features Include**

- Smart Anodised aluminium frames
- Galvanised steel backing
- 50 year guarantee on enamel surface
- High quality track roller system, Screw cover caps, Instructions
- Screw cover caps, instructions for cabinet construction & fitting

**Size Range**

Stand size units are – 2400mm, 3000mm & 3600mm ... and yes, we can make special

sizes to fit your wall space!

**Product Care**

**Cleaning & Erasing**

Dry-erase whiteboard markers can be removed by using a simple eraser or dry cloth. Use Whiteboard cleaner periodically when residue builds up on the surface. Permanent marker ink can be removed using whiteboard cleaner.

**Marker Selection**

You can use any writing markers like whiteboard markers, permanent markers, neon/chalk markers. For the best writing experience, we have a range of recommended markers you can use. For more information please contact us.
