

Laser-Etching

What's Laser Etching?

PROWITE™

Magnetic

Highest-quality magnetic whiteboards with a porcelain enamel surface. The PRO-ETCH™ range contains tools to make your farm or business more profitable. Many sizes available, so if you need a board with a map, grid/table or whatever contact us and we will help you develop a useful tool for your business that you will use for years to come as it never wears off.

Surface/Produced

Laser Etching is the process used to create grids, maps or pictures on whiteboards. It uses a high precision industrial strength laser to create very fine, accurate black lines, melted into the surface of the board making it permanent but unobtrusive. It is only done on PROWITE™ Porcelain Whiteboards, so the result is always a superior quality product. PROWITE™ porcelain-on-steel whiteboards are the ultimate in dry-erase writing surfaces. The ultimate for high use and when you want a porcelain whiteboard that lasts forever!

These boards are produced using Porcelain Enamel on steel aka Ceramic on steel, fired at a temperature of over 800°C during production, giving the boards an exceptionally hard, ultra-smooth and durable writing surface finish with a 50-year guarantee. PROWITE™ whiteboards are first when it comes to premium, strength and quality.

We have an expert in-house design team who have many years of experience and are able to help you design a board that will be a valuable asset to you and your business.

Materials

They have a robust aluminium frame, honeycomb substrate and galvanised steel back to avoid warping and moisture absorption during humid conditions.

Use

We create presentation solutions for businesses nationwide and have a large variety of standard designs specifically for business use. We also specialise in drawing and etching farm maps and planner designs as well as catering for the specific needs of schools and educational institutions. Get your organisation laser-sharp today with a PRO-ETCH™ Laser-Etched whiteboard design!

Laser Etched Whiteboards with printed graphics. A wide variety of different planning whiteboards for schools & offices, all ultra-high quality and with professional style. Send us your design; we can etch almost anything onto a whiteboard as the possibilities are endless! Also, no more scruffy hand-drawn lines - just a tidy, smooth, reusable grid board to use year after year.

They're useful, & very simple to follow. They're multi-use durable whiteboards. Also, they're very easy to clean and last forever! They can be made on any size board and can include milking rosters, feed plans, year planners or any other supplementary planners or information you may require.

Installation

So quick & easy to install - lightweight. It can be easily installed to existing drywall.

Features Include

- Smart aluminium frames
- Galvanised steel backing
- 50-year guarantee on etched graphics & enamel surface

Product Care

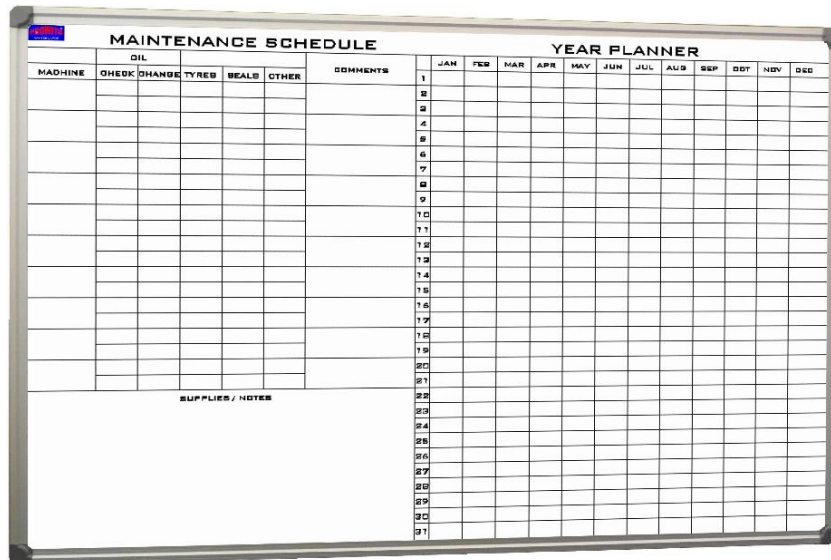

Cleaning & Erasing

Dry-erase whiteboard markers can be removed by using a simple eraser or dry cloth. Permanent markers can be removed using whiteboard cleaner. If you don't use abrasive cleans on the surface these boards will last a lifetime.

Marker Selection

You can use any writing markers like whiteboard markers, permanent markers, neon/chalk markers. For the best writing experience, we have a range of recommended markers you can use. For more information please contact us.

PRO-ETCH Maintenance Schedule Boards

Use

A PRO-ETCH™ Laser Etched Maintenance Schedule whiteboard is designed to assist you in recording and actioning regular maintenance on plant and machinery.

PRO-ETCH™ maintenance schedules feature a year planner on one side for your convenience and a table on the other half specifically designed for quick and easy recording of oil, tyres and seal checks as well as space for other parts and comments. There is also a handy section for notes or supplies/spare parts needed.

These PRO-ETCH™ whiteboards are excellent for workshops, farmers, contractors or anyone who servicing machinery and are available in several sizes depending on your requirements.

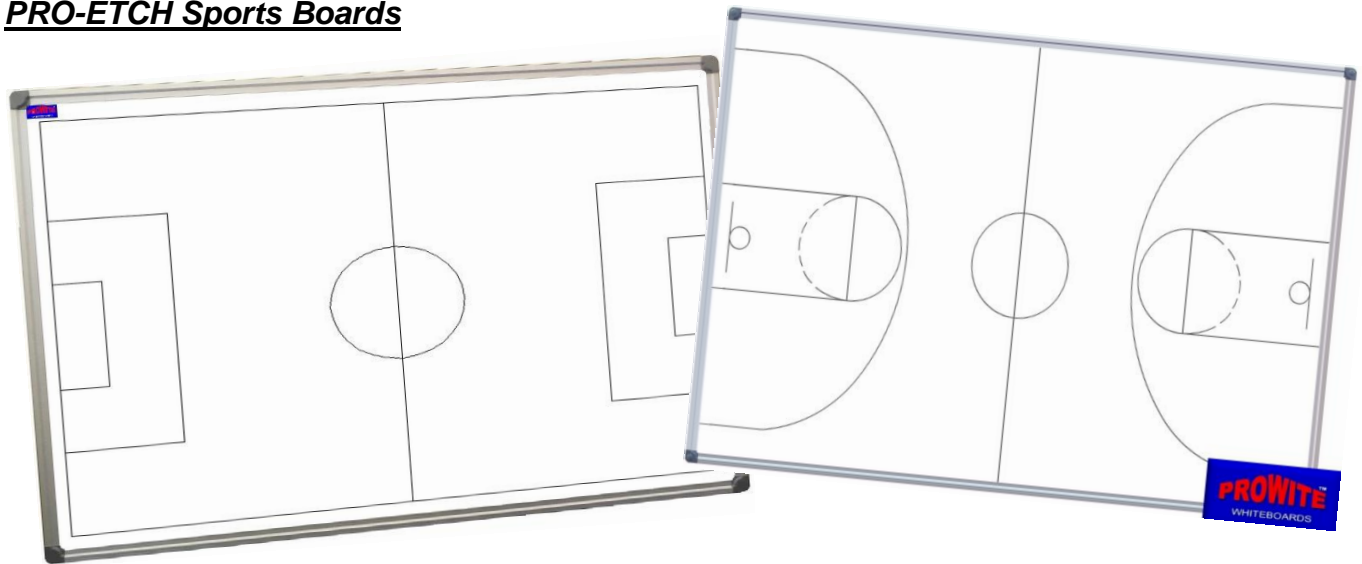

Size Range

It's also available in a variety of sizes. So, if you're interested in these boards contact us and we will be glad to help you develop a useful tool for your business that you will use for years to come.

PRO-ETCH Gridded Boards

Use

PRO-ETCH™ grid whiteboards are a must for a math classroom and make drawing graphs, prisms and shapes a breeze.

The grid whiteboards have a 25mm, 40mm, or 50mm grid right across the surface allowing you to accurately plot points on a graph, draw maps or cubes and prisms, and the lines are fine enough that it can just be used to write on. They are handy to have in every classroom alongside the main whiteboard and can use any size board. You can even have a grid pattern on just part of your board - or one side if it's a mobile whiteboard.

These PRO-ETCH™ whiteboards are excellent for farms, schools, businesses or just anyone that wants a grid board for personal use and are available in several sizes depending on your requirements. The PRO-ETCH™ range contains tools to make you and your school or business more effective.

Size Range

It's also available in a variety of sizes. So, if you're interested in these boards contact us and we will be glad to help you develop a useful tool for your organisation that you will use for years to come.

PRO-ETCH Music Boards

Use

The PRO-ETCH™ Music Board is a great tool for aspiring maestros and their tutors for teaching and learning music theory.

This board has five staves to assist the student in writing notes, time signatures and treble clefs etc. Students can practice over and over again and can easily fix errors on the dry-erase surface. Teachers can also write up their lessons on these and are great for sharing with a group or class.

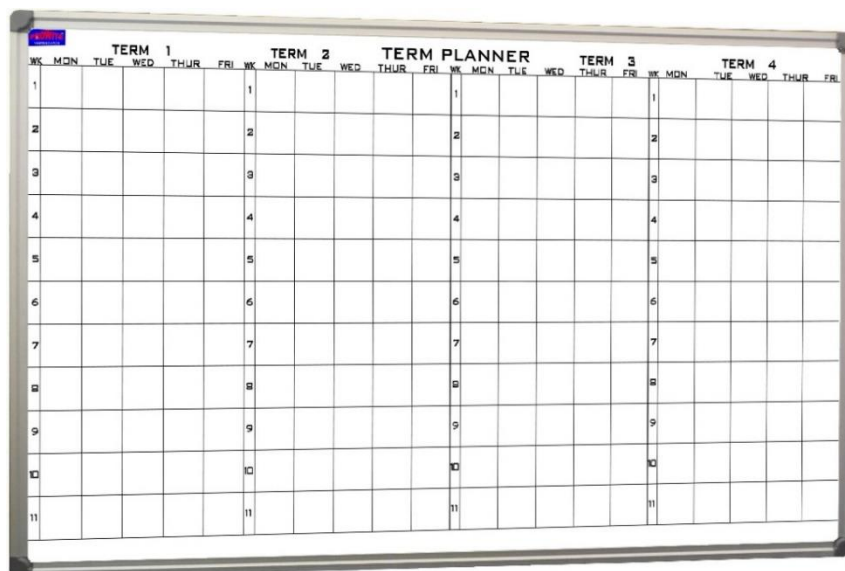

Size Range

The staves are 120mm apart and each line 25mm apart giving plenty of space for drawing correct notes. 5 Stave with 23mm or 4 stave with 30mm line spacing, except the 900 x 900mm & 900x1200mm landscape are both 4 Stave with 23mm line spacing. It's also available in a variety of sizes. So, if you're interested in these boards contact us and we will be glad to help you develop a useful tool for your school that you will use for years to come.
