PROWITE™

PROWITE™ Porcelain-Enamel Whiteboards – Edge3™ Framed

Edge3™ - Clean & Sleek Modern Designer Look

Magnetic

Highest-quality magnetic whiteboards with a porcelain enamel surface. Available in many sizes, plain or printed...

Surface/Produced

PROWITE™ porcelain-on-steel whiteboards are the ultimate in dry-erase writing surfaces. The ultimate for high use and when you want a porcelain whiteboard that lasts forever!

These boards are produced using Porcelain Enamel on steel Ceramic on steel, fired at a temperature of over 800°C during production, giving the boards an exceptionally hard, smooth and durable writing surface finish with a 50-year guarantee.

PROWITE™ whiteboards are first when it comes to ease of installation, strength and quality.

Materials

They have a robust slimline aluminium frame **Edge3™** which has a 3mm front surface & is 15.5mm deep, honeycomb substrate (strong and lightweight) and galvanised steel back to avoid warping and moisture absorption during humid conditions.

Use The ideal choice for high-use situations eg: offices, classrooms, homes & farm sheds, as constant writing and rubbing **will not** scratch or wear out the surface.

As the edge of frame is flat and 15.5mm deep it integrates perfectly with acoustic panels butting into it.

They're also perfect for interactive whiteboard (IWB) setups where a flat surface is needed, and a stylus or electronic pen is often used.

Installation So quick & easy to install. It can be easily installed to existing drywall.

Fixing Kit included with the whiteboard

Extra Features The PROWITE™ porcelain surface is also ideal for *laser-etching* (printing), please enquire to find out more about laser-etched whiteboards and what we can do.

Features Include -Smart **Edge3™** aluminium frames – black or white standard.

-Galvanised steel backing

-50 year guarantee on enamel surface

-Split rail hidden wall fixing

Size Range Made to order in any size from 900 x 1200mm up to 2400 x 1200mm but can make special sizes to fit your wall space!

Product Care

Cleaning & Erasing Dry-erase whiteboard markers can be removed by using a simple eraser or dry cloth. Permanent markers can be removed using whiteboard cleaner. DO NOT use abrasive cleaners, as these will destroy the surface and void the warranty.

Marker Selection You can use any writing markers like whiteboard markers, permanent markers, neon/chalk markers. For the best writing experience, we have a range of recommended markers you can use. For more information please contact us.
